Highlights	<p>Smart eLearning Mobile Apps (2015–present) Systems Architecture, Project Management, Application Development, UX Design</p> <p>In partnership with Smart Communications, we built the mobile apps platform and the server back-end multimedia content system. We launched and deployed these educational apps to localized areas and indigenous peoples.</p> <p>COMELEC Election Tracking (2013) Systems Integration, Project Management, Site Operations</p> <p>In partnership with AIR21, we successfully launched the real-time COMELEC election materials tracking system for May 2013. A fully outsourced logistics, AIR21 will be handling both deliveries and pick up/return to warehouse origin (reverse logistics). We developed an end-to-end system to track over 80,000 parcels in several key destinations and polling centers across the Philippines.</p> <p>This enables COMELEC to decrease its reaction time by quickly addressing problem areas and minimizing lost ballot boxes and chances of election fraud.</p> <p>AIR21–US Embassy VISA Application Tracking (2010) Systems Integration, Project Management, Site Operations</p> <p>In partnership with AIR21, we successfully launched the real-time US Embassy VISA Application Tracking. Upon turnover to the logistics company for delivery, users can easily track the status of their application.</p> <p>AIR21 iOS, Android & BlackBerry Apps (2012-2016) Systems Integration, Project Management, Application Development</p> <p>Another first for AIR21 as we launched the mobile apps of AIR21 in all major platforms. This state of the art technology catapults them as the leader in the logistics industry and showcases their operational efficiency in this field.</p> <p>Users can track their packages in real-time, locate the AIR21 branches nearest them, and a rate calculator to compute how much to send a package to a destination.</p> <p>Trevoca Enterprise-wide Supply Chain, Operations & Logistics System (2005) Systems Integration, Project Management, Application Development</p> <p>Trevoca is product development and marketing organization for winning nutraceuticals and functional foods.</p> <p>We developed a blend of systems to fully automate the key processes of online ordering, e-Commerce, payment solutions, inventory control and warehouse management, fulfillment and logistics, commission calculation, payout and electronic disbursements.</p> <p>Distributors and wholesalers were able to operate a fully automated and true online business.</p>
